Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. ClaimS 1-8 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Williams (5813630).

Williams shows a first expansion means 25, first compression means 36, both driven by a common shaft and a motor generator10, a further expansion means 144 that is connected to the shaft and the motor and further being drive by air out of the cabin through 160 to extract energy therefrom.
